

2018 Monroe County Fair Demolition Derby Rules
Tuesday, July 31, 2018 9 p.m. show

IF THE RULE DOESN'T SAY YOU CAN; THEN YOU CAN'T!

1. 1980 and newer original auto manufacturer built passenger cars only! No Trucks, Convertibles, Jeeps, Vans, Travelalls, Suburban or Utility Vehicles allowed. Cars will not be allowed if damage is determined to be a safety issue.
2. No tow trucks/support vehicles allowed in pits during event. Tow vehicles will be allowed to enter to remove cars after each show. All cars must be removed within 2 hours after event. Any cars left after 2 hours will be scrapped.
3. Tools will be allowed in Pit Area to work on cars. No unapproved cutting, welding or modifications will be allowed after inspection. Cutting torches in pit area may only be used with the presence and permission of race officials.
4. All cars must be equipped with approved seat belts. Helmets must be approved. Full face helmet is recommended. Drivers must wear long sleeve shirt, long pants and full coverage approved shoes. Fire suit and gloves are recommended.
5. Reasonable clearance allowed for shifter, steering column, wires/fuel line. Firewall must be structurally sound to inspector's discretion. Holes over 4" in firewall/floor board must be sealed. No loose objects allowed in car during event.
6. Braces may be added and securely fastened behind drivers seat from door post to door post and/or A-Post to A-Post, to protect foot area.
7. **Welding allowed as described:** OEM bumpers only. Frame and bumper seams may be welded, maximum 3" washer may be welded to frame. Door seams may be welded. Trunks must be opened for inspection or have 12" inspection hole located in center of trunk to verify that trunk is empty. Bumpers front and rear may be welded to frame rails, no added solid/filled in braces allowed. Floor boards and battery box may use 1/8" thick material to replace rusted areas. Motor mounts may be welded, no chains or bars welded to frame. No plating or stuffing to the body or frame rails. Bent frames will be allowed to weld 1/4" thick plate on damaged area not to exceed 2" on each side of bend. **No stringers, no bars from interior or firewall forward or rearward.**
8. **Driver's door must be reinforced.** Reinforced area must extend from location of driver's knee rearward past driver seat. Concrete if used, must be within 4" of top of door, no loose stones. Maximum door reinforcements must not exceed 12" wide or extend past driver's door more than 8". Ends of reinforcement must not be sharp or squared off. Front and rear passenger doors may not be reinforced. Driver's door must be padded from interior to cover top of window opening.
9. **Glass/Windshield:** Rear windows, side windows, headlights, tail lights, all mirrors must be removed. **(Front Windshield must be intact and secure if used).** Lexan may be used to replace stock windshields. Cracked windshield may be taped with clear tape and braced to support cracked area. Replacement windshields must be supported inside and minimum of five tabs on the outside securely fastened. Three tabs on the top of windshield and two lower tabs minimum. If no windshield, minimum two braces, structurally sound, roof to center of cowl, centered, securely fastened and driver **MUST** have full face helmet, gloves, eye protection and full coverage, long sleeve, heavy material coverage (will be checked as cars enters track).
10. **Chains:** Chains will be allowed to close hood and trunk lids, two chains allowed front and rear. Doors may be chained closed at door pillar. No welding chains to door. Cutting holes in doors for chain attachment is permitted. Chains must be securely fastened. No chain or wire from rear end to frame. Hood bolt maximum 1", attached sheet metal to sheet metal, unless it is core support bolt. Two holes in hood, 6" holes one on each side of hood.
11. **Suspension:** Front suspension must remain stock to vehicle. A-arms may be cut at end to allow for larger ball joint. A-arm must be butt welded back together, no adding metal plates. Drop drag link is permitted. **No solid or welded suspensions.** Air shocks and spring assists are not allowed. Suspension must be within 2" of stock height. No lift kits. Rear suspension must remain stock. Spring must sit and stay in stock location on A-arm.
12. **Gas Tanks:** Maximum capacity 6 gallons. Stock tanks must be removed. All gas tanks must be covered with metal fire wall. No fire blankets allowed. Gas line must be steel, except for connections. Lines must be securely fastened. Electric fuel pumps allowed if stock. Fuel cells recommended. Cars with electric fuel pumps must have **MASTER SHUT OFF SWITCH**, marked with **RED ARROW**. Any fuel line that runs inside drivers compartment must be enclosed in metal tubing and painted red.

13. Battery must be relocated in driver's compartment and must be covered/enclosed/securely fastened to inspector's discretion. Any stock type battery is allowed, one (1) per car. Ignition must have switch to start, no loose wire connections allowed.
14. Radiators must remain in stock location. Mounts may be modified, but no strengthening core support. Replacing rusted core supports allowed, but not to exceed stock core supports.
15. **Engine Area:** All cars must have stock type air cleaner, no open element air cleaners allowed. No additional holes in air cleaner housing. Distributor only protectors are allowed. Exhaust must exit past driver floor area or exit thru hood. Exhaust pipes must not extend higher than roof height. No exhaust pipes allowed to run through driver's area. No other protectors. No engine cradles or aftermarket mounting devices allowed.
16. **Body Mounts:** Body mounts must be in stock location, no additional body mounts allowed. Body mount attachments must use stock body mounts. Maximum 1" bolt diameter may be used. Maximum 3" washer allowed between frame and floor pan, 5" washer allowed on top of floor pan. Brackets used to attach gas tank cover will be considered body mount if attached to frame rail. No cable or wire can be used for body mounts. Bolting body panels is allowed, round headed bolts only, body to body only. No sharp edges.
17. **Painting and Numbering:** All cars should be presentable. No offensive language or images allowed. Numbers must be on both doors and roof. Minimum number size is 16" high, 2" wide. Driver's door must be painted black with white number or white with black number (contrasting color to rest of car paint design).
18. **Tires/Wheels:** Passenger vehicle tires only, no aggressive tread, wheels must be stock.

DERBY RACE RULES

To be covered in detail at Driver's Meetings: Team driving is not allowed; Drivers may be entered in both Derbys; Driver's door/head-on hits not allowed and may result in disqualification; Cars must hit/make contact with other running cars every 30 seconds or may be disqualified; Driver safety equipment will be rechecked as car enters track for race; Drivers qualified for feature may not run another heat in that show.

GENERAL

No alcoholic beverages or controlled substances allowed in pit, staging, track or grandstand area. All participants agree that decisions of the race officials (inspection, race procedure, scoring etc.) are final, and there shall be no protests. In keeping with the family theme of the Monroe County Fair, anything considered detrimental to the overall theme of the Fair will subject participants to disqualification/removal from grounds.
